Wenger®

Your Performance Partner

GEARBOSS[®]

by *Wenger*

Dear friends and customers:

How can we help you? That question has driven Wenger for almost seventy years. Since entering the athletic equipment market, we've been at your side, discussing your needs and providing solutions like no other company on earth.

Today we are more active in the pursuit of your satisfaction than at any other time in our history. We closely track our customer feedback through our survey process and we fine tune our services routinely. We insist that our products not only provide lasting functionality, but also truly enhance practice, game-day performance and the overall quality and effectiveness of your program. And we never stop innovating. Our unique equipment storage and industry-changing locker solutions are used by many of the best athletic programs in the country.

I could go on and on, and that's exactly what this catalog does. Please know, as proud as we are of all we have to offer, our promise to you is that we will never stop looking for more ways to help you attain the performance that you desire. Thank you for your business and support.

Sincerely,

Chris Simpson
President and CEO
Wenger Corporation

TABLE OF CONTENTS

GearBoss® by Wenger provides a complete, state-of-the-art approach to consultation and product solutions. From lockers, to storage, to equipment transport and fund-raising solutions, GearBoss products save you time, space, and effort. They're flexible and customizable so your system can change as your needs change. Plus, we'll work with you every step of the way to make sure you get exactly the right system—nothing more, nothing less.

"Wenger really listened to us and translated our goals into reality. They came up with the best rendering and model of any company we worked with, and Wenger lockers stood out for how they're built."

"We wanted a locker room that gives players the 'wow factor' every time they walk in. Our new lockers also dry out everything in a timely manner and give our players a comfortable, convenient place to relax."

*– Andy Harris,
Assistant Director of Football
Operations, University of Minnesota,
Minneapolis, Minnesota*

THE GEARBOSS ADVANTAGE:

SPACE

GearBoss delivers a unique solution that increases the storage capacity of your rooms by as much as 50 - 75%, while greatly improving organization and access. GearBoss carts also give you the ability to roll the entire team's equipment closer to the point of use. You can even secure the cart under stairs, in the hall or right in the gym, creating temporary storage space where you never had it before.

MOBILITY

People and equipment in any athletic program are constantly on the move. From the gym, on the bus to away games, to the field house and the locker room. Your equipment storage can and should be mobile as well. GearBoss by Wenger allows you to get the equipment close to where you need it. Team Carts™ can disengage from the track in your storage room and roll wherever you need them.

ORGANIZATION & SECURITY

The average school or professional team has thousands of pieces of athletic equipment to organize, store, transport, and keep in working order. Time and budget constraints demand that you know what you have, where it is and protect it from loss or theft. GearBoss carts let individual teams secure their equipment, even in an unlocked room.

"We've had no concerns with anything from Wenger – the products speak for themselves in terms of quality. Durability and ease of use were the two biggest reasons we chose GearBoss."

*Larry Adkins, Assistant Principal,
R.B. Stall High School, North
Charleston, South Carolina*

FLEXIBILITY

GearBoss by Wenger is designed to adjust as your programs change and is flexible enough for any coach or equipment manager to reconfigure to his/her own organizational style. The GearBoss system is flexible enough to fit any space, to be used by any staff member, and to fit many types of gear. GearBoss is so flexible you can move the entire system to a new or renovated facility. GearBoss allows you to maintain high-density storage, even when equipment changes from season to season.

SANITATION

MRSA virus, mold, mildew, bacteria, and staph issues can be a burden on your athletes and your program. Carts, shelves, and lockers are designed to get equipment and uniforms off the floor making cleaning underneath easier. Plus, lockers are treated with an antimicrobial finish. Our carts and shelves assist you in organizing pieces of equipment into a specified cleaning rotation. And all GearBoss storage balances cubic density with optimum air flow. Result? – an organized, clean and cleanable room.

PRIDE

GearBoss by Wenger will put the pride back in your team and equipment room. The organization and cleanliness of your GearBoss equipment covered with your team colors and logos will make a positive impact on everyone who comes in contact with your athletic program.

BUILD YOUR DREAM FACILITY

Let the GearBoss team help you prepare and simplify the tasks that come with any new construction or renovation project.

EARLY INPUT AND CONSULTATION

We've been involved in thousands of new construction and renovation projects around the world. We can help you benchmark your facility so you can plan early for the most economic use of the space you have. Call on the GearBoss team as soon as a project is on the horizon. Getting started **early** is one key to success.

- We bring you strategic insights into the workings of athletic spaces. Equipment rooms, laundry facilities, coaches offices and locker rooms all have unique requirements that your GearBoss representative will outline for you. We can help you define your program's needs and goals.
- Your GearBoss representative can provide you with the communication tools you need when discussing your project with architects, administrators and alumni. We have a wide array of literature including planning guides, space and cost comparisons and case studies to assist you in securing approval on your project. Ahead of any meeting with architects or administrators, turn to the GearBoss team for presentation support and materials.

CALL 1.800.4WENGER
(1-800-493-6437)

for our free literature

GETTING STARTED

When you call, be ready to discuss your athletic programs and the dimensions of your storage areas. We'll quickly provide options and layouts to organize your space. Your GearBoss representative has the experience and knowledge to lead you through every step of the process.

FREE LAYOUT PLANNING

- Go online and fill out a GearBoss request form to get a project-specific layout.

PRODUCTS AND PRACTICES THAT HELP OUR ENVIRONMENT.

For as long as we've been developing high-quality, durable products to meet the needs of our customers, we've also been exploring ways to be better stewards of the environment we share. Whether it's the nearly 1,000 tons of materials we recycled last year or the energy-efficient lighting in our plant, our goals have always been green. Here are some of the ways we're helping reduce, reuse and recycle:

- Green cleaning agents and a non-metallic conversion coating
- Securing properly sized raw materials eliminates waste
- Computer-optimized cutting processes improve yield
- ISO quality-improvement tools reduce scrap
- Wenger delivery trucks are built with the latest clean-burning diesel emission-control technologies
- Stretch-wrapping eliminates corrugated waste
- Post-installation packaging is returned and reused or recycled
- Pallets are reused or remanufactured
- Instant foam packaging – free of CFCs and HCFCs – is used when possible

Simplifying the LEED Certification process

As a member of the LEED Construction Initiative, Wenger has the insights and experience to make the LEED certification process easier for our customers to understand and attain.

Implementing the philosophy of the USGBC

As a member of the US Green Building Council, the group that developed LEED, Wenger is dedicated to fulfilling USGBC's mission to promote green building practices. We understand and embrace

the principles behind the USGBC and its LEED Initiative, which is your guarantee that once you start down the road to LEED certification, you will be officially and enthusiastically supported every step of the way. www.usgbc.org

Meeting FSC CoC certification

Recognized by LEED, the Forest Stewardship Council is an independent, not-for-profit organization established to promote the responsible management of the world's forests. FSC Chain-of-Custody (CoC) certified products carry a label certifying that FSC-tracked material is used throughout the production process. Wenger's certification is pending. www.fsc.org

Meeting GREENGUARD certification

The mission of The GREENGUARD Environmental Institute (GEI) is to protect human health and quality of life through programs that help reduce chemical exposure and improve indoor air quality. To date, GREENGUARD has certified many Wenger products including GearBoss Storage Carts and AirPro lockers, with more certifications to come. www.greenguard.org

Even this catalog is environmentally friendly

This catalog is printed with environmentally friendly Enviro/Tech ink and printed on paper that is FSC-certified for its recycled content.

CUSTOMIZABLE WOOD LOCKERS

GEARBOSS®

A TEAM ROOM THAT INSPIRES GREATNESS

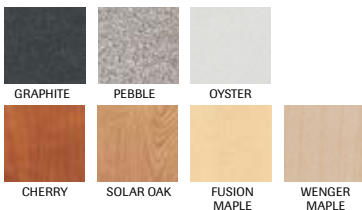

Your facilities reflect your tradition as well as your expectations for future success. The one area where this matters most, the area that impacts your players every day, is the team room. More than just a locker room, your team room needs to inspire, recruit, and function. Both the GearBoss customizable wood and AirPro metal lockers will help you create a first-class team room that will set your program apart.

Old Dominion University, Norfolk, Virginia

LAMINATE OPTIONS

Wenger offers a variety of standard laminates which provide great aesthetics, the best costs and short lead times. For additional finish options to match your school tradition or interior design, contact your representative.

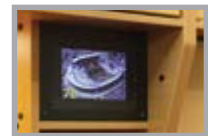

LED Lighting

Add accent lighting to your cubbies and other enclosed areas.

Digital Technology

Displays, touch screens, or tablets can be incorporated into the design to display images, video, email and more.

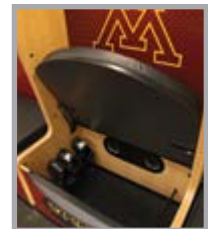

Lockable Storage

Programmable digital locks protect athletes' personal and valuable items while they are practicing or playing.

Seat

Eliminate chairs and benches that take up valuable locker room space with an integrated, cushioned, high-durability seat.

Under-Seat Storage

Under the seat is additional storage. Great for shoes, backpacks, duffles, etc.

Ventilation

Promote extra airflow and drying of sweaty gear by adding fans to your custom design.

THE WENGER ADVANTAGE

GEARBOSS CUSTOMIZABLE WOOD LOCKERS

Better Design – We understand that better locker design actually helps team rooms operate more efficiently and cleanly.

Built to Last – Wenger builds our wood lockers with durability in mind, and back our work up with a 10-year limited warranty.

Pride – Creating a signature team room not only looks great, but it inspires professionalism and pride in your athletic program among current and future athletes.

Improved Ventilation and Sanitation – The open design and optional fans promote airflow, reducing mildew and odor buildup. Antimicrobial polyester laminates use nano-silver technology to keep surfaces clean for the life of the locker.

CUSTOMIZABLE WOOD LOCKERS

It's the new locker system that comes with built-in motivation. This spectacular new GearBoss design is everything you need to make a statement to every player and every recruit. Coaches will love how these lockers make it easy to apply your school colors and logo. Equipment managers will love how the open design promotes continuous airflow and easy cleaning to keep the entire team room in tip-top shape. Wenger will work closely with you to make sure your new GearBoss team room lockers fulfill your vision.

USAGE

The ultimate team-building environment, combining unparalleled construction and high-end custom aesthetics with a new level of cleanliness.

CONSTRUCTION

- Engineered with high-performance features that outperform and outlast wood veneers and cabinet-type construction
- Modularity means you can make repairs without breaking glues, dowels, or adjacent components and you can move or reconfigure as needs change
- Integrated bench seating eliminates the need for floor-mounted benches or folding chairs, saving valuable floor space
- Open design promotes airflow to encourage drying and reduce mildew and odor buildup and can be enhanced with optional fans
- Highly durable 3/4" (1.64 cm) thermofused composite wood core built to survive repeated rugged use in hardcore environments
- Closed-cell structure polyester-laminate surfaces are easier to clean and more durable than wood veneer
- Antimicrobial polyester laminates use nano-silver technology that lasts the life of the product and creates a hostile, lethal surface for bacteria, viruses, mold, and mildew
- 5/8" laminated wood shelf and hinged seat
- Heavy-duty PVC edge banding maintains the integrity of the laminate surface and prevents chipping and separation
- Long-lasting bolt-through construction on connections, hooks, and doors
- Widths available in 2" (5 cm) increments from 18" (46cm) to 36" (91cm)
- Three available side shape configurations: contour, cutback, and straight
- Two gas spring hinges on seat for soft close
- Through bolting to connect side-by-side units allows easy removal of a single locker
- Steel base mounting fixture provides natural ventilation and height adjustment to compensate for uneven floors
- 10-year limited warranty

OPTIONS

- Optional accessories include lockable cubby; additional storage cubbies; football helmet and shoulder pad topper; fans for topper; full electronics, including lighted name plate and duplex outlet; programmable digital lock; footlocker drying racks; backlit footlocker fans; hooks and garment bar configurations; high-wear laminate for seats; more than one thousand ultimate configurations and the ability to match the entire system to your school's colors and branding.

ORDERING INFORMATION

Monmouth University, West Long Branch, New Jersey

"We wanted recruits and players to feel good about what they see – it's a "Wow!" feeling when you walk in – and our GearBoss lockers really accomplish this. They are first-class – we're very impressed! The available options were also very attractive; other companies didn't offer these upgrades. Wenger did an outstanding job installing more than 340 wood lockers in our Multi-Purpose Athletic Center."

– Jeff Stapleton, Senior Associate Athletic Director for Internal Operations, Monmouth University, West Long Branch, New Jersey

AirPro™ LOCKERS

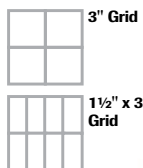

GEARBOSS®

Grille Door

Lockable Door
Athletes just add their own combination lock to their door to protect their valuables.

Grids
Standard grid is 3" x 3" and more secure custom grid is available 1 1/2" x 3"

No Door/Door Ready

No Door with back

Wood Door

Door Options
AirPro lockers are available with solid door, grille door, or no door. Door and frames can create dual color combinations to reflect your program.

Wenger is certified by GREENGUARD™ for our GearBoss storage carts and AirPro™ metal lockers. GREENGUARD is a product-certification program for low-emitting interior building materials, furnishings, and finish systems used in educational, office and other sensitive environments. www.greenguard.org

Innovative security
Hasp lock hardware is standard to secure the foot locker with the no-door open face configuration.

Under-seat storage
A hinged seat opens to reveal additional storage. An optional strong box keeps smaller valuables like wallets, watches and cell phones safe and secure.

A clean design
AirPro lockers are open underneath for easy cleaning. It eliminates nooks and crannies that collect dust, litter, and germs.

Grid options
Choose from our standard 3" x 3" (8 cm x 8 cm) wire grid, or for more security you can opt for our 1 1/2" x 3" (4 cm x 8 cm).

THE WENGER ADVANTAGE

GEARBOSS AIR PRO™ LOCKERS

Sanitation - AirPro's durable metal grid construction allows for maximum airflow and the off-the-floor design allows for easy cleaning underneath. Anti-microbial finish on shelf for added sanitation efforts.

Aesthetics - Every space is a reflection of your program and with GearBoss organization and school colors you can take pride in your locker room.

Security and Trust - The durable, lockable design provides a confident level of security for your athletes' valuables. Extra lockable storage under the hinged seat as well.

Space Saving - 30" deep seat design eliminates need for athletic bench or chair.

AirPro™ LOCKERS

New GearBoss AirPro lockers give your team rooms the ultimate in ventilation, sanitation and space usage. They create team rooms that stand apart with a durable grid design and multiple color options. They mount off the floor for thorough cleaning and a sanitary team room. Integrated seats remove the need for space-consuming benches. AirPro lockers offer a level of functionality and aesthetics that simply can't be matched by press-metal lockers.

USAGE

GearBoss AirPro lockers offer a fresh new alternative to traditional stuffy metal hallway and Phy Ed lockers, featuring an open design and a custom appearance.

CONSTRUCTION

- Highly durable and easily adaptable to reflect your school's athletic traditions
- Open grid design promotes continuous airflow to encourage faster drying and keep contents free of mildew and odor buildup
- Open design permits easy visual inspection of contents
- Adjustable height shelf with three garment hangers
- Each locker includes an integrated bench seat, eliminating the need for floor-mounted benches or folding chairs, saving valuable floor space
- Hinged seating opens to a sizable storage compartment beneath each locker
- Resistant-welded heavy-duty 1/4" (6 mm) steel wire grille sides, top, and under with standard 3" x 3" (8 x 8 cm) wired grid pattern. Standard grille door pattern has 1" (2.5 cm) grille openings
- Upright support tubes constructed from heavy-duty 1 1/4" (3 cm) diameter 16-gauge steel tubing
- Four available widths: 15" (38 cm), 18" (46 cm), 24" (61cm), 30" (76 cm)
- Mounts securely on wall 5"-7" (15cm-20cm) above the floor to further enhance ventilation and allow easy sweeping, mopping, and sanitation under each locker
- Also available in island configurations that securely mount to the floor on heavy-duty legs
- 3/4" (19 mm) laminate wood shelf and hinged seat polyester laminated with antimicrobial finish and heavy-duty edge band
- Durable powder-coat paint finish
- Four available configurations: open without door (with lockable seat), door-ready (with lockable seat), lockable resistant-welded heavy-duty 1/4" (6 mm) steel wire grille door coordinated with school color, lockable solid 5/8" (16 mm) laminated wood door with PVC edge banding

Germantown High School, Germantown, Wisconsin

- ADA-compliant
- 10-year warranty

OPTIONS

- No door, grille door, laminated wood door or door ready
- Wall or island mount
- Security box in foot locker
- Helmet/shoulder pad topper
- Laminate wood back panel
- 1 1/2" x 3" (4 x 8 cm) wire grid pattern available for added security
- Custom wood end panels
- Optional grid patterns available depending on your security needs.

ORDERING INFORMATION

Please call your Wenger representative for consultation.

"The AirPro lockers are working out great – they look good and are very functional. Our new locker room is becoming like a clubhouse for our kids; they hate to leave it sometimes. Because the lockers are mounted off the floor, we can sanitize underneath them very easily."

– Phil Datka, Football Coach,
Germantown High School, Germantown, Wisconsin

Livingston High School, Livingston, New Jersey

HIGH-DENSITY STORAGE - X-CARTS™

GEARBOSS®

Attic Addition

Engineered to maximize vertical storage potential. Two heights – 26" (66 cm) and 38" (97 cm) to stretch the limits of your ceiling. (Use on a 48" wide cart)

Handles and Casters

allows you to move large amounts of equipment down the hall, through doorways, outside, on the trailer...

..... **Tracks** allow you to move your X-Cart & Team Carts laterally to create an aisle between carts, saving valuable space.

Roller Guides follow the track, keeping units aligned. This allows carts to be moved laterally for easy access to cart sides and contents.

"GearBoss maximizes our available storage space and protects our investment. We easily have \$100,000 of uniforms and equipment. The carts keep the equipment off the ground, safe from pests and moisture."

– Mike Giaime, Athletic Director, Del Norte High School, San Diego, California

..... Accessories like helmet and shoulder pad stackers not only help you organize better but they allow your equipment to breathe better.

THE WENGER ADVANTAGE

GEARBOSS STORAGE SYSTEMS

Economize Space - GearBoss Systems can store twice as much equipment in the same volume of space by reducing aisles and economizing cubic storage space.

Flexibility - GearBoss carts can be rearranged and reconfigured as often as you need.

Security and Organization - Improve security, inventory control and oversight with a locked and organized room.

Show your Pride - Every space is a reflection of your program and with GearBoss organization and school colors you can take pride in your equipment room.

GEARBOSS® X-CARTS™

GearBoss high-density storage carts create more room in less space – improving space efficiency by as much as 50% – by using an innovative system of tracks and rolling carts. X-Carts are designed to move laterally on the track and stay in your equipment room. Team Carts are portable and engineered with retractable track guides so you can move the equipment around the room or off campus. No more wasted time running back and forth to the storage room. Every cart can be reconfigured for maximum storage. The best solution includes a mix of X-Carts and Team Carts, and your Wenger representative will design the best solution for you. Bottom line – you'll get a flexible sports storage system engineered to meet every challenge.

USAGE

Easy to use, easy to access, efficient storage system can handle all of your uniforms and gear.

- Convert traditional storage area into organized, secure high-density space

CONSTRUCTION

- Available in two widths 32" (81 cm) and 48" (122 cm)
- 32" (81 cm) wide x 78" (198 cm) long x 79" (201 cm) high
- 48" (122 cm) wide x 78" (198 cm) long x 79" (201 cm) high
- Roller guides follow the track keeping the units aligned and are made of glass-filled nylon
- Intended for indoor use in normal ambient temperature and humidity conditions – must not be exposed to prolonged outside weather conditions
- Welded chassis made from 16-gauge, 14-gauge and 12-gauge components
- Upright support tubes constructed from large 2" (5 cm) diameter, 16-gauge steel tubing
- Resistant-welded heavy-duty steel wire grille end frames. 1" grid opening
- Durable powder-coat paint finishes. Variety of colors available for wire grille ends
- Heavy-duty 6" (15 cm) wheels provide easy movement
- Roof panel constructed from solid 5/8" (1.5 cm) thermofused composite wood and with aluminum extrusions is rated for a 150 lb (67.5 kg) load
- 5-year warranty

THE WENGER ADVANTAGE

GEARBOSS STORAGE SYSTEMS

Economize Space - GearBoss systems can store twice as much equipment in the same volume of space by reducing aisles and economizing cubic storage space.

Flexibility - GearBoss carts can be rearranged and reconfigured as often as you need.

Security and Organization - Improve security, inventory control and oversight with a locked and organized room.

Show your Pride - Every space is a reflection of your program and with GearBoss organization and school colors you can take pride in your equipment room.

GEARBOSS® TEAM CARTS™

Team Carts are high-density storage carts that operate like our X-Carts™ but they can also leave the track and transport your gear wherever you need it.

Now it's easy to get your equipment out of storage and to the gym, practice area, parking lot or sidelines – without breaking a sweat. GearBoss Team Carts retain all the convenient storage benefits of X-Carts but are engineered to leave the track. Imagine all your gear organized on one or two high-density storage carts, traveling wherever it needs to go – and back again. Or park and lock your equipment in a temporary space, instantly creating safe, secure storage anywhere.

USAGE

Easy to use, easy to access, efficient storage system can handle all of your uniforms and gear.

GEARBOSS® SportCart™

GEARBOSS® SportCart™

Compact GearBoss SportCarts can be used as part of a larger GearBoss installation or as a mobile, stand-alone solution. They are designed for use in small spaces and for sports that require less storage. Four heavy-duty, 5" swivel casters make mobility a snap. The nimble SportCart will navigate narrow hallways, shorter door openings and most elevators. It's the small-space storage solution.

USAGE

SportCarts™ have a smaller profile for easy movement around your facility, in elevators and on trucks and trailers.

CONSTRUCTION

- High-density storage on or off the track
- Heavy-duty commercial-grade swivel casters for easy moving on hard surfaces such as concrete, gym floors, tile and low-pile unpadded carpet
- Welded chassis made from 16-gauge, 14-gauge and 12-gauge components
- Upright support tubes constructed from large 2" (5 cm) diameter, 16-gauge steel tubing.
- Variety of colors available for wire grille ends
- Resistant-welded heavy-duty steel wire grille end frames. 1" grid openings
- Extra wide heavy-duty 5" (12.7 cm) swivel casters made from glass-filled nylon with polyurethane non-marring outer roller guides
- Roof panel is solid 5/8" (1.5 cm) thermofused composite wood core with aluminum extrusions is rated for a 150 lb (67.5 kg) load
- 32" (81 cm) wide x 41 2/3" (106 cm) long x 74 1/2" (189 cm) high
- Five-year warranty

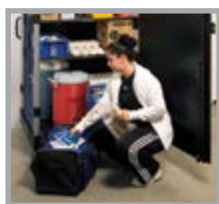

OPTIONS/ACCESSORIES

- Shelves, garment bars, dividers and more on page 14

ORDERING INFORMATION

Mobile storage on a smaller scale - as a trainer cart, it's perfect for storing tools, medical equipment or other small items.

Get innovative and use it for storing things besides equipment like the snacks you sell at your concession stand.

Roll where you need it. Easily rolls through doorways and is small enough to store in a closet or smaller storage room.

University of Missouri, Columbia, Missouri

GEARBOSS® WORKSTATION

GEARBOSS® WORKSTATION

The equipment room is a hub of activity. Helmets are assembled and decaled, equipment is inspected and repaired, hundreds of jerseys and garments are folded, lunch is eaten, meetings are held. If you are using folding tables, boxes or the floor to make it happen, it's time to step up to the GearBoss Workstation. Ergonomically perfect at 42" (107 cm) high the Workstation features a tough 1" (2.5 cm) wood laminate surface. The entire Workstation rolls easily on casters keeping your space transitional to ever-changing activities. Built like a GearBoss Storage Cart, you can add optional, adjustable grille shelves and locking bypass doors.

USAGE

Easy to use, easy to access, efficient storage system can handle all of your uniforms and gear.

- Convert traditional storage area into organized, secure, high-density space

CONSTRUCTION

- 32" (81 cm) wide x 78" (198 cm) long x 42" (107 cm) high

GEARBOSS® CART ACCESSORIES/OPTIONS

CLOSURES AND DOORS

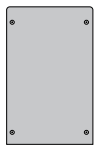

Lockable bypass doors and panel closures enhance cart content security. Enclose the sides and ends of your carts with theft-resistant, 5/8" thick panels. Closures and doors can be finished with a variety of laminates and provide excellent space for team logos. Lockable sliding doors (32" and 42" carts only) and swing doors (SportCart only) are ready for your locks, adding another element of security.

BYPASS DOORS
Easy-glide track and secured with a padlock.

32" (81 cm)
END CLOSURE
Use with 32"
(81 cm) cart

48" (122 cm)
END CLOSURE
Use with 48"
(122 cm) cart

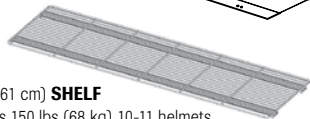

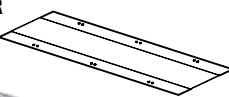

SIDE CLOSURE
3 panels leave small gaps to encourage air flow while deterring theft.

SHELVES

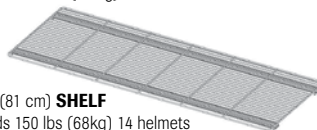

Heavy-duty steel wire shelves come in two convenient widths: 24" (61 cm) (used in a 48" wide cart) and 32" (81 cm) and shelves can be adjusted vertically in 1" (2.5 cm) increments. A plastic shelf liner accessory makes it easier to slide items in and out. Sturdy, rugged and willing to take one for the team, each shelf can easily handle a 150 lb. (68 kg) load.

SHELF LINER

Plastic liner used with shelf

24" (61 cm) **SHELF**
Holds 150 lbs (68 kg) 10-11 helmets

32" (81 cm) **SHELF**
Holds 150 lbs (68kg) 14 helmets

GARMENT BAR AND DOUBLE TRUSS

One full-length garment bar can support over 150 jerseys. Made of powder-coated, 1½" (3.8 cm) sturdy steel tubing. Vertically adjustable in 1" (2.5 cm) increments.

FULL AND HALF LENGTH GARMENT BAR

For use in X-Cart, Team Cart and SportCart

DOUBLE TRUSS

For use in X-Cart & Team Cart with helmet hangers and shoulder pad hangers

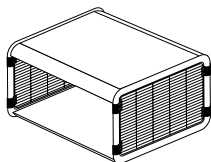

SHELF LIPS

Shelf lips secure with the same knobs as the dividers and can be set up with the tall side out for a 4" (10 cm) lip or the short side out for a 2.5" (6.3 cm) lip.

ATTIC EXTENSIONS

The GearBoss Storage Attic is engineered to maximize the vertical storage potential of your space. Storage Attic is 26" (66 cm) high. Storage Attics fasten securely to the frame of a 48" (122 cm) X-Cart. Attic colors can be matched to your cart system.

NOTE: Attic on 48" w cart only

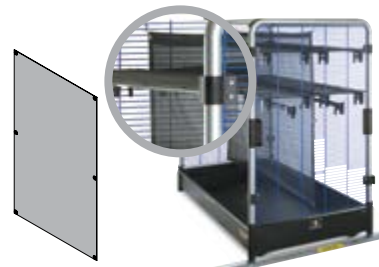

TRACKS

Tracks can be embedded in the floor for new construction or surface-mounted in existing facilities. Tracks keep the carts in line, allowing them to move laterally to provide access to sides and contents when and where you need it. (Surface-mounted track shown)

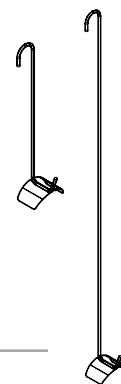

SOFT CART DIVIDERS

Mesh dividers allow you to divide a 48" (122 cm) wide GearBoss cart lengthwise. The mesh dividers allow visibility through the cart.

SHOULDER PAD HANGERS

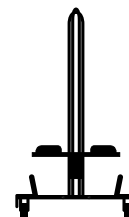

Shoulder Pad Hangers come in two lengths and are best supported by our sturdy double truss. Hangers encourage better airflow around pads and easy access to any pad at any time. 30 short; 30-long in a 32" wide X or Team Cart equal 60 individually hung shoulder pads.

SHOULDER PAD STACKER

There simply isn't a better way to store lots of shoulder pads in less space. Made of durable steel tubing, each stacker can compactly store 18-22 pads. GearBoss Stackers feature four heavy-duty, built-in wheels to easily take the pads to the players. In addition, stackers feature an adjustable shoulder form so that pad shape is preserved while in storage. With four stackers on a 32" (81 cm) cart, you will have over 80

pads stowed away yet ready to roll or can be left free standing.

HELMET HANGERS

Hangers make it easier to access and move 8 helmets at a time. A 32" (81 cm) X-Cart can hold 56 helmets and a 48" (122 cm) X-Cart can hold 112 helmets on hangers.
